

6. Modifying Effort

About Effort Modification

You can modify the effort values registered for a project after the project is adopted. The modification needs to be approved by your research institution and accepted by the Funding agency.

Process for Modifying Effort

Basic Operations

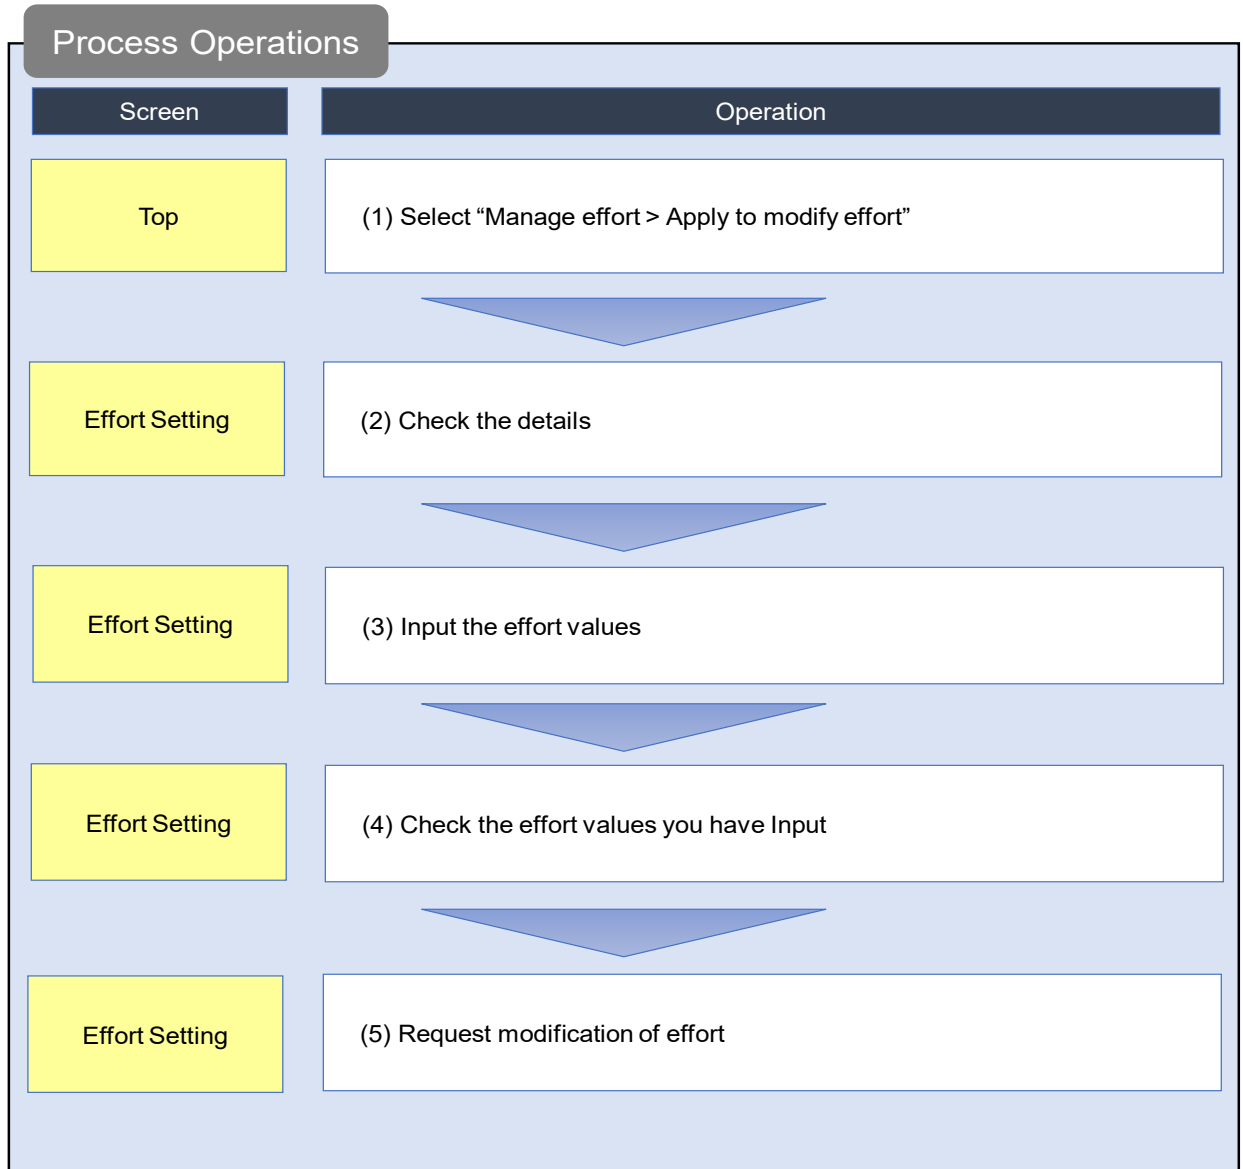

➤ Modify effort

You can modify the effort values of a project after it is adopted.

→ ["3.1 Modifying Effort"](#)

6.1 Modifying Effort

This section explains how to modify effort values.

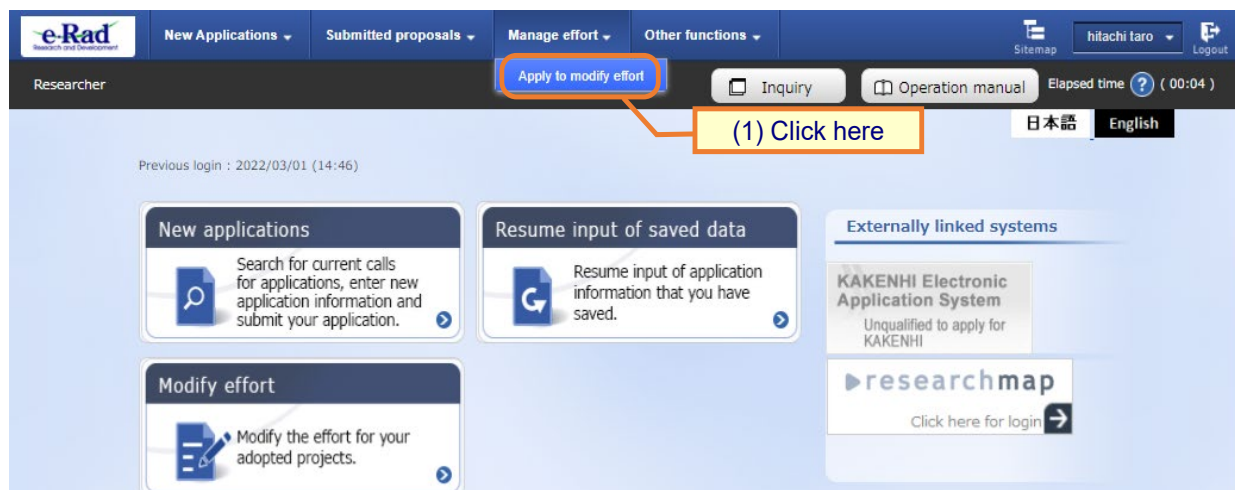

Caution

About Effort correction

- After applying for effort correction, you can't perform another process until Funding agency 's processing is complete. Please be careful.

Instructions

(1) Selection in the Global Menu

(1) Click "Manage effort > Apply to modify effort" in the Global Menu on the top screen.

(2) Check the details

The [Effort Settings] screen is displayed.

The screenshot shows the 'Effort Settings' page in the e-Rad system. The page has a top navigation bar with tabs: 'New Applications', 'Submitted proposals', 'Manage effort', and 'Other functions'. Below the navigation bar, there's a 'Researcher' section with fields for 'Application year' (set to 2022), 'Researcher number' (40377585), and 'Researcher name' (00000 FN28789). A table below shows 'Current value' and 'New value' for 'Adopted theme', 'Issues outside of e-Rad', 'Other Efforts', 'subtotal', and 'Total number of submitted projects'. The 'Adopted theme' row shows 21% current and 22% new. The 'Issues outside of e-Rad' row shows 5% current and 5% new. The 'Other Efforts' row shows 4% current and 4% new. The 'subtotal' row shows 30% current and 31% new. The 'Total number of submitted projects' row shows 30% current and 30% new. Below this is a 'Download search results' link. The main section is 'Adopte Project information' with a 'Hide adopted project information' button. It contains a table with columns: 'Applied via e-Rad', 'Funding agency', 'Project title', 'Department', 'Role', 'Research period', 'Amount', 'Effort (%)', 'Status', 'Effort modify applicant', and 'Delete'. The table has three rows of data. The first row is for '2019 FY 2023 - FY' with an amount of 0 yen and effort of 3%. The second row is for '2021 FY 2024 - FY' with an amount of 3,300,000 yen and effort of 15%. The third row is for '2020 FY 2022 - FY' with an amount of 100,000 yen and effort of 3%. Below the table is a 'Provisionally calculated ongoing project' section with a table of columns: 'Funding agency', 'Project title', 'Department', 'Role', 'Research period', 'Amount', and 'Effort (%)'. At the bottom, there are sections for 'Current project proposal details', 'Status of research expenses outside of e-Rad', and 'Other activities'. A 'Main page' button is at the bottom left, and a 'Modify the effort value' button is at the bottom right.

(1) Select year

(2) Check these details

(3) Click here

(1) Select the year of the project and search for the project you want to modify.

(2) Check the effort.

(3) Click "Modify the effort value".

**Note**Provisionally calculated ongoing projects

- If a project is ongoing from the previous fiscal year and the grant decision and the total amount of confirmed funding for the previous fiscal year has not been registered on e-Rad by the funding agency, the information on the approved project is not created for the current fiscal year and the effort value for the previous fiscal year is calculated for the current fiscal year. In order to create information on the approved project for the current fiscal year and modify the effort value, the total amount of confirmed funding for the previous fiscal year needs to be registered by the funding agency. Contact the funding agency that posted the call for applications.

(3) Input the effort values

The [Effort Settings] screen is displayed.

Modify the effort values.

The total effort value is calculated from adopted projects and provisional calculations.

Effort Settings

Displays a list of research projects you involved in.
In this screen, you can correct your "effort" in your approved projects.
- "Effort" is the ratio of your total work time that needs to be allocated in order to complete the research.
- Manage your work time appropriately.
- Applications and approved projects via e-Rad are automatically added to the list here.
- If there is applications / approved information that is not managed by e-Rad, please add / remove it yourself.

About input values

- ☐ Enter the effort as an integer between 0 and 100.
- ☐ Enter so that the total of adopted project and provisional calculations is 100% or less.
- ☐ You cannot modify when you applying for change or you have already applied for effort and before the project accepted.

Applied via e-Rad

- “○” is displayed for the research project applied via e-Rad.

If you are working on research project that was applied for outside e-Rad, you can register the details yourself like below.

This completed the procedure for modifying effort.

Your request to modify effort is sent to the research institution registered for the project. It will only be submitted to the Funding agency when it is approved by the administrative manager at your research institution. The applied effort values are reflected to the project after accepted by the Funding agency.
